Service & Repair

We pride ourselves on the long-lasting relationships we have with our customers. We know that pricing is important but we are equally focused on ensuring excellence through our friendly, proactive and reliable service.

At Fairfield Care the quality of our products is important and the development of our own ranges is designed to support the specific requirements of our customers. Britex, our own range of professional cleaning products and chemicals, provides total cleaning options. Protex, our own brand of consumables currently offers a variety of specialist gloves with new products being added soon.

As well as our extensive range of products, we have an in-house team of care equipment engineers who can provide installation, regular aftercare and emergency support.

Helping our customers to help others is our focus and we look forward to working with you.

Ordering Online With Fairfield Care

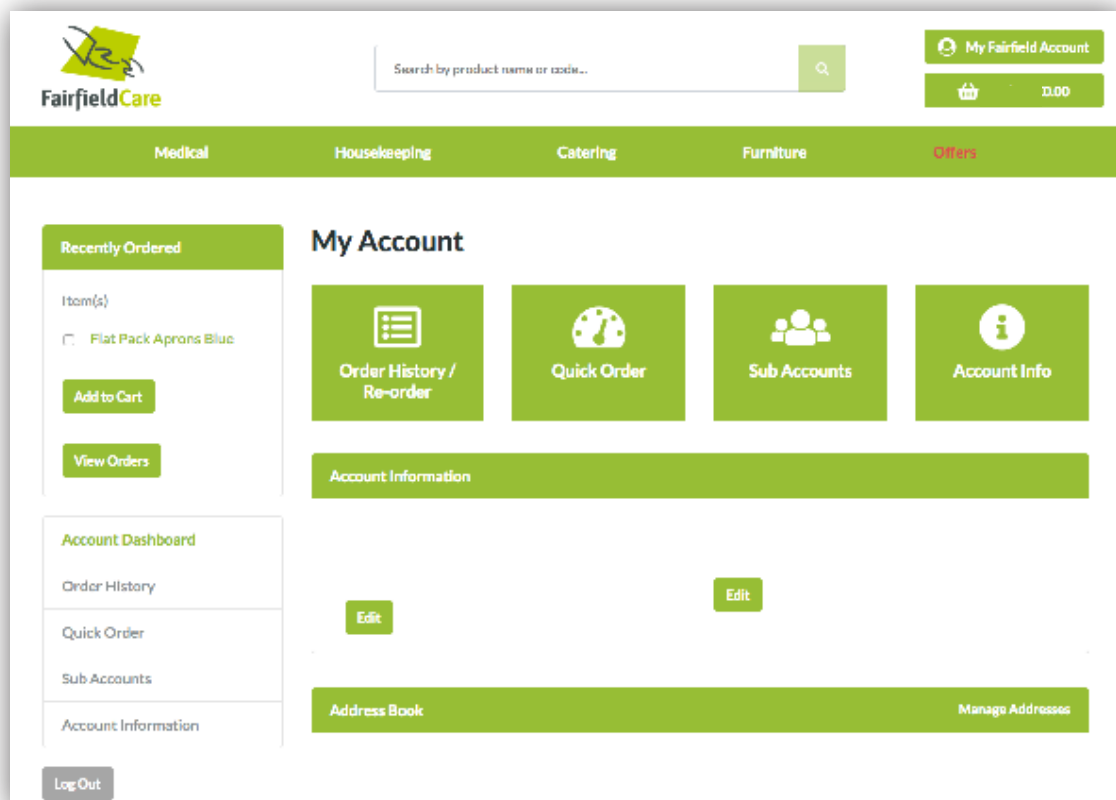

The Care industry doesn't have regular 9-5 hours, so our user-friendly online ordering platform lets you purchase products whenever, and wherever you like.

OUR ONLINE SYSTEM ALLOWS YOU TO:

- View your previous order history
- Re-order previously ordered items with one click
- Quick order – view your favourite items
- Place your order at a time to suit you
- View our exclusive online offers

WE'VE ADDED THESE FEATURES TO MAKE ORDERING EVEN EASIER:

- 1 Control the items that you want your care homes to be able to order
- 2 Agree and set a maximum spend
- 3 Set head office approval on orders before they're processed by Fairfield Care
- 4 Easily order the same items regularly
- 5 View reports of spend for each home

Creating an account is easy, simply visit www.fairfieldcare.co.uk and head to 'My Fairfield Account' where you will be able to register. Alternatively you can speak to one of our friendly sales team on 01234 324 530 who will be able to help set up your account with a list of your favourite/regularly ordered items.

We don't just deliver to your door...

At Fairfield Care, we really do help you! Our drivers go that extra mile to make sure all your items arrive safely and they will deliver them right up to your store cupboard.

2 day delivery!

We offer a 2 day delivery on orders placed by 4pm. Orders placed by 4pm on day 1 will be delivered to you on day 3. Orders placed after 4pm on day 1 will be delivered on the 4th day (e.g an order placed at 4:30pm Tuesday will be delivered Friday). Orders placed on Friday will be delivered the following Tuesday. We only deliver Monday-Friday.

Hassle free returns!

If an item is defective, damaged or short delivered, it is the customers responsibility to notify us within 24 hours of receipt of goods. To arrange collection or exchange of goods, please contact our customer care team on 01234 324 530.

We do not accept returns on opened/used items or perishable, bespoke or made-to-order products, unless the item is found to be faulty.

Once the returned item has been received we will replace or refund as required.

cleaning wipes
and chemicals

Combining innovative technology with ease of use, Clinell products provide healthcare professionals with the most effective solutions available. Each product is supported and verified by solid clinical evidence.

CLINELL UNIVERSAL WIPES

Clean and disinfect in a single step. Kills at least 99.999% of pathogens. Effective from 10 seconds.

The UK's most trusted single-step detergent and disinfectant; ideal for use on both surfaces and non-invasive medical devices. Patented near-neutral pH formula ensures exceptional material compatibility and is proven to kill at least 99.999% of pathogens after 10 seconds, norovirus within one minute and reduce instances of MRSA by 55%.

CLINELL SPORICIDAL WIPES

Peracetic acid generating wipes for safe surface disinfection and the cleaning of non-invasive medical devices. Effective against spores in one minute.

The UK's safest, most trusted sporicidal wipes for high level cleaning and disinfecting of surfaces and non-invasive medical devices.

Incredibly powerful, with 6 log spore kill count in just 1 minute, yet kind to surfaces thanks to patented, near-neutral pH formula. Proven to reduce *C. difficile*-associated disease by 72%.

50mm x 10m	12	MC050

MEFIX ADHESIVE FABRIC

- Polyester non-woven elastic coated with skin-friendly yet secure polyacrylate adhesive
- Protected by easy to remove, pre-measured release liner
- Flexible, to conform to body contours
- Perforated split for easy removal and application

SIZE	QUANTITY	CODE
50mm	1	MC051
100mm	1	MC052

TRANSPORE TAPE

- Conformable plastic hypoallergenic transparent tape
- Ideal for general dressing requirements and holding devices
- Very porous and breathable, allowing moisture to escape without reducing adhesion
- Quick and easy bi-directional tear
- All lengths are 9.1m

SIZE	QUANTITY	CODE
2.5cm x 9.1m	12	MC053
5cm x 9.1m	12	MC053A
7.5cm x 9.1m	12	MC053B

TRANSPARENT PLASTERS

- Transparent
- Bend, stretch and conform to different shapes and forms
- 6 sizes
- Latex free
- Waterproof
- 100 plasters per box

QUANTITY	CODE
1	MC147

BLUE PLASTERS

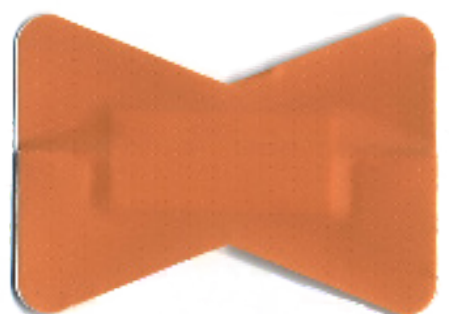

- Withstands routine handwashing
- Prevents cross contamination
- 6 sizes
- 100 plasters per box

QUANTITY	CODE
1	MC148

FINGERTIP PLASTERS

- Soft & flexible
- Ventilated wash proof plasters
- Low allergy
- Sterile and individually wrapped
- 50 plasters per box

QUANTITY	CODE
1	MC149

MEDICAL CONSUMABLES

STERILE ACCESSORIES

STERILE PLASTIC FORCEPS

- Disposable plastic forceps
- Individually packed
- Single use forceps
- Length 13cm
- 10 per pack

BD MICRO FINE INSULIN SYRINGE

- Sterile individually blister-packed hypodermic syringes with needle
- A comfortable and convenient method of injecting insulin
- One unit increment allowing accurate dosing
- Box of 200

SIZE	QUANTITY	CODE
1ml	1x200	MC084

MEDICAL CONSUMABLES NEEDLES

MICROLANCE STERILE NEEDLE

- Designed to fit all Luer Slip and Luer Lok syringes
- Excellent penetration performance
- CE marked
- Supplied in packs of 100

COLOUR	QUANTITY	CODE
Blue	1x100	MC072
Green	1x100	MC073
Orange	1x100	MC074
Pink	1x100	MC075

BD SAFETY NEEDLE SMART SLIP

- Built-in safety shield aligned with the bevel of the needle
- Safety shield permanently locks into place, significantly reducing the risk of needle stick injuries
- Sold in packs of 100

SIZE	QUANTITY	CODE
21g Green	1x100	MC079
23g Blue	1x100	MC080
25g Orange	1x100	MC081

STERILE BUTTERFLY INFUSION SET

- Sterile butterfly-winged infusion sets
- Includes colour-coded wing colours and Luer-Lock connectors
- 19mm needle length
- Supplied in packs of 50

SIZE	QUANTITY	CODE
21g Green	1x50	MC089
23g Blue	1x50	MC090
25g Orange	1x50	MC091

BD VACUTAINER BLOOD COLLECTION SET WITH HOLDER

- Provides split-second protection against needlestick injuries
- In-vein activation irreversibly retracts the needle in split second
- Tubing length 178mm
- Sold in packs of 25

QUANTITY	CODE
1x25	MC094

BD SAFETY-LOK BLOOD COLLECTION SET

- Single handed safety activation with irreversible locking mechanism
- Tubing length 178mm
- Needle size 21g x 19mm
- Sold in packs of 25

QUANTITY	CODE
1x25	MC095

HYPODERMIC NEEDLE

- These ultrasharp, tri-bevelled stainless steel needles allow the injection of pharmaceuticals with minimal trauma
- Ultra thin wall allows rapid and efficient drug delivery
- Colour coded according to ISO Standards
- Sold in packs of 100

SIZE	QUANTITY	CODE
21g Green	1x100	MC083G
23g Blue	1x100	MC083B
25g Orange	1x100	MC083O

MEDICAL CONSUMABLES

RESUSCITATION

OXYGEN MASK & TUBING

- Provides accurate concentrations of oxygen
- Transparent mask with soft anatomical form and easily adjustable strap
- Rotating connector selects according to set flow rates and percentage concentration required

QUANTITY	CODE
1	MC124

RESUSCITATION MASK

- Supplied in a highly visible hard case, the resuscitation mask is an essential accessory allowing first-responder to begin resuscitation safely and quickly

QUANTITY	CODE
1	MC126

RESUSCITATION KIT

Reusable silicon resuscitation kit with the following accessories:

- Handi vac aspirator
- Disposable laryngoscope blades, sizes 1, 2, 3 and 4
- Laryngoscope handle
- 3 Guedal airways
- Tuff Cut scissors
- Prameta grey tourniquet
- Comes with either a reusable silicon bag or disposable PVC bag

QUANTITY	CODE
1	MC127

ZOLL AED PLUS DEFIBRILLATOR

- Automated defibrillator guides user through each link of the survival chain: situation assessment, CPR and defibrillation
- Highly visible and always ready with a 5 year battery life
- Clearly shows when batteries need replacing, typically at 100 shocks
- Controlled corrosion within pads for 5 year shelf life
- Unique design of CPR-D Padz correctly orientates their placement around the key CPR landmark - the sternum
- Simple self-adhesive system ensures rapid and correct positioning

QUANTITY	CODE
1	NE031

GUEDEL DISPOSABLE AIRWAYS

- Designed for free airflow, by protecting from airway occlusion from the relaxation of the tongue in an unconscious patient
- The top colour coded section is thickened for protection from biting, ideal for seizure patients and unprotected airways
- Sterile & individually packed

SPILL WIPES

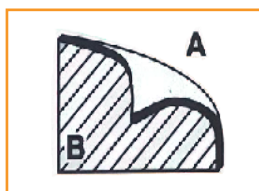

SUPER
ABSORBENT
SOAKS UP TO
1 LITRE OF
LIQUID

1. Wear the appropriate
PPE

2. Tear the pack open and
remove the wipes

3. Side A is active and
should be placed on the
spill

4. Place the active side (A)
face down onto the spill.
Leave to absorb for 30 secs

5. Push down onto side B,
which is plastic backed,
and wipe until spill is fully
absorbed

6. Put the soiled wipe back
into the pack

7. Remove a disinfectant
wipe from a sachet. Clean
the spill area in an S shape
motion, wiping from clean
to dirty

8. Put soiled wipe and
empty sachet back into the
pack

9. If required, repeat steps
7-8 with the remaining wipe.
Then reseal the bag

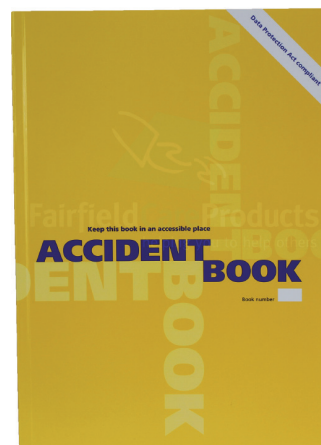

10. Dispose of the pack as
hazardous waste

MEDICAL CONSUMABLES RECORD BOOKS

MEDICAL EQUIPMENT THERMOMETERS

THERMOMETERS

- Wall-mounted room thermometer
- Floating bath thermometer
- Spirit filled
- Room measures temperature over range of -30 to 50°C
- Bath measures temperature range of 0-50°C
- Accuracy of 1°C.

TYPE	QUANTITY	CODE
Room	1	J0254
Bath	1	J0253

DISPOSABLE THERMOMETER

- Hygienic clinical thermometer for single use
- Helps prevent cross contamination

QUANTITY	CODE
1x100	NE001

FOREHEAD THERMOMETER

- 25-memory; all measurements are stored
- Very compact, ergonomic thermometer design
- Dual scale (celsius or fahrenheit)
- Large LCD display for easy reading
- Fever alarm
- Low power consumption
- Conforms to ASTM accuracy standards

QUANTITY	CODE
1	NE005

EAR THERMOMETER

- Digital ear thermometer
- Provides accurate and rapid temperature readings
- Temperature reading range of 34-42.2°C
- Supplied with 20 probe covers

QUANTITY	CODE
1	NE006

BRAUN THERMOSCAN 5 IRT 6020 THERMOMETER

- Pre-heated tip for increased accuracy
- Rapid measurement
- Large back-lit LED screen
- Last reading memory
- Modern, ergonomic design
- Temperature range: 34 to 42.2°C
- Display resolution: 0.1°C
- Measurement accuracy: 35 to 42°C $\pm 0.2^{\circ}\text{C}$ ($\pm 0.3^{\circ}\text{C}$ Outside this range)
- Clinical repeatability: $\pm 0.14^{\circ}\text{C}$
- Battery life: 2 years / 600 measurements

QUANTITY	CODE
1	W26812

DIGITAL THERMOMETER

- Auto switch off saves battery
- Multilingual instructions
- 60 second response
- Memory of last reading

QUANTITY	CODE
1	NE022

MEDICAL EQUIPMENT PROBE COVERS

ETI PROBE COVERS

- Spare covers for digital ear thermometer
- These save cross-contamination of instrument
- Very hygienic and simple to replace
- These are extremely cost-effective
- 40 per box

QUANTITY	CODE
1x40	NE003

BRAUN PROBE COVERS

- Disposable probe covers
- Helps maintain strict hygiene standards
- Ensures accurate reading every time
- Supplied in quantities of 200

QUANTITY	CODE

MEDICAL EQUIPMENT

PATIENT ANALYSIS

HUNTLEIGH SC300 BLOOD PRESSURE MONITOR

- The SC300 is a new mains / battery operated compact spot check vital signs monitor
- This powerful, flexible platform offers healthcare professionals a range of measurements which includes non-invasive blood pressure, pulse rate, pulse oximetry and a wireless tympanic temperature option
- Size - 125x299x130mm
- weight - 1.25kg

- Equipped with a long life 12 hour high capacity battery pack, the SC300 can be used in any healthcare setting
- Patient status is displayed on the 6" colour coded digital display enabling clinicians to make critical decisions at the point of delivery
- The SC300 is suitable for adult, paediatric and neonatal patients
- Measurements are made at the touch of a button which means that users are able to spend more time caring for their patient rather than working through user documentation or set up options
- The wireless thermometer option delivers accurate measurements with all patient groups in seconds
- The pre-heated probe tip enhances the patient experience and supports accurate measurements
- To support patient administration and effective record keeping, the large internal memory can store up to 50 sets of measurements
- Automatic measurements - Measurements may be made at pre-determined intervals - 2, 3, 4, 5, 10, 15, 20, 25, 30, 60 min intervals or CONTINUOUS (STAT)

Mobile Hoist Service

For a reliable, fast and professional repair service, you can trust in Fairfield Care and our specialist engineers, who are here to help you help others. Regardless of whether you are in need of an urgent repair, if you have arranged a maintenance service or need a specialist part, we guarantee a fast turnaround for repair to your equipment. We can guarantee repairs will always be long-lasting, and most fundamentally for you and your residents, safe and secure to operate.

Why the safety of your mobile hoist is crucial

Between April 2001 and December 2007, there were 163 hoisting accidents reported to the Health and Safety Executive, and many will have gone unreported. It is our responsibility as health care professionals, and the people they care for to ensure that equipment is well maintained to reduce these risks as much as possible.

Specifically, when it comes to mobile hoists, it is best to apply the following guidelines to ensure everything is in working order or prevent damage to your mobile hoist:

- Steer clear of transporting the mobile hoist over long distances or over rough surfaces
- Do not put on brakes whilst hoisting (unless for certain types of hoists where brakes need to be applied or as otherwise stated by the manufacturer and handling plan)
- Do ensure that the hoist legs are in the most stable and secure position whilst operating
- When the hoist is not in use, store it in a safe place with the boom/crane in its lowest position and with the brakes applied

For more information
on mobile hoist

MOVING & HANDLING HOISTS

OXFORD PRESCENCE HOIST

- Ideal for almost any patient-handling task, making it a great all round performer
- Outstanding lifting range of 1910mm, enabling lifting from the floor on to a high surface
- Minimum height with the 6 point spreader bar is just 440mm, for excellent off the floor transfers
- Additional space promotes better ergonomics for the carer, making it possible to interact more closely with the patient
- Unique swan neck leg design allows the lift to get close to the widest of obstacles, such as large chairs, bulky commodes and wheelchairs
- Two powerful electric motors open and close the legs automatically
- 2 year warranty as standard
- Weight capacity 227kg
- Powered 4 point cradle (optional)
- Digital weighing scale option (optional)

QUANTITY	CODE
1	MH039

Available
with stud fixing
cradle!
See page 88

OXFORD PROFESSIONAL STATURE HOIST

- Copes with even the most demanding and technical of patient handling situations
- Outstanding lifting range enables it to cope easily with the most critical of daily tasks
- Superior ergonomic design protects both the patient and carer from injury
- Powered leg positioning
- Opening and closing of the legs is fully automated, leaving the carer free to focus on the patient
- 2 year warranty as standard
- Weight capacity 227kg
- Powered 4 point cradle (optional)
- Digital weighing scale option (optional)

QUANTITY	CODE
1	MH040

MOVING & HANDLING HOISTS

OXFORD MIDI 180 ELECTRIC HOIST

- The Oxford® Midi 180 has become the 'gold standard' in homecare, offering surprising performance for a hoist of its size. The Midi is the perfect solution for both community and nursing environments, whilst being sympathetic to the space constraints it might encounter
- Safe working load 180kg / 27st
- SmartTM Monitor diagnostic and service controls as standard
- Foot pedal leg opening mechanism with latch/lock functionality
- Electric leg option available
- High grade Tente castors for easy manoeuvrability
- Detachable battery pack and desktop charger
- Optional Class III digital weigh-scale

QUANTITY	CODE
1	OX1003

INVACARE BIRDIE EVO

The Birdie EVO range encompasses an ergonomic lift that allows the client to be easily rotated 360°, making positioning much easier for the carer and reducing anxiety for the client

- Can be easily folded and unfolded without the need for tools
- The Birdie Evo compact has a low weight of 31kg making it even easier to transport and store
- Curved design of boom and spreader bar
- Hook design
- Ergonomic push bar
- Battery status indicator
- Also available in Evo Compact (160kg)

TYPE	QUANTITY	CODE
Standard (180kg)	1	MH038E

MOVING & HANDLING HOISTS

OXFORD POWERED POSITIONING CRADLE WITH UNIVERSAL SCALE

- 4-point adaptive powered cradle
- Allowsthecarertolowerandpositionthepatientforoptimum recline and comfort
- Eliminates requirement for manual repositioning
- Designed for use with Oxford Presence and Stature lifts
- 2 year warranty

QUANTITY	CODE
1	MH26PC

WEIGH-SCALE PRO FOR OXFORD HOIST

Oxford's low profile digital weigh-scale is designed for use with the Presence and Stature lifts from the Professional series. The digital weigh scale offers a number of significant benefits for the user:-

- Its compact, low-profile design ensures maximum lift height is not compromised when in use
- Its integrated dual-screen display means the digital weigh scale can be viewed from either side of the boom, making the scale very easy to use
- It is class III certified meaning it provides a highly accurate measurement of weight each and every time – critically important for on-going patient monitoring
- The weigh scale is available in 3 different attachment versions: with 6-points spreader bar, with 4-point manual cradle or with 4-point adjustable power cradle

QUANTITY	CODE
1	XX

MOVING & HANDLING HOISTS

INVACARE ROBIN CEILING HOIST

- Provides a unique and innovative method of transfer
- The only hoist available that has 'dual strap' technology
- Offers a comfortable and safe transfer with optimal communication between client and carer
- Dual strap technology does not rely on a spreader bar - allows eye contact between client and carer at all times
- Grants the carer full interaction at all times and provides an environment where reassurance can be given at all times
- No spreader bar removes any fear the client may have of the equipment
- In the event of an emergency, lowering, raising and stop functions are standard features built into the motor unit
- Self-adjusting strap inlet allows the straps to adjust to the client's body shape
- Centrifugal braking system ensures that the straps are synchronised for a balanced lift

MOVING & HANDLING HOISTS

InvacareEC-Track™ System

We can supply and fit a range of tracking hoist systems. These range from simple bed to room transfers to complex XY tracking systems to lift a patient around a room.

The InvacareEC Track system completes the versatility of the InvacareRobin overhead hoist (page 89). To meet varied transfer needs, there are a wide range of tracking options for different kinds of environments and types of installation.

The EC Track has a discrete modern design with a flush fit and long span, ensuring that the complexity of the various transfer needs are met. EC Track is constructed from lightweight but robust aluminium material and is exceptionally easy to install.

EC - Gantry

Ideal for immediate needs following hospital discharge, short term use or where an installation is not possible. Tracks are on "legs". There is no need for installing tracks in walls or a ceiling. EC - Gantry is very easy to install and dismount. Once mounted it is very easy to raise and lower the height of the gantry without using tools.

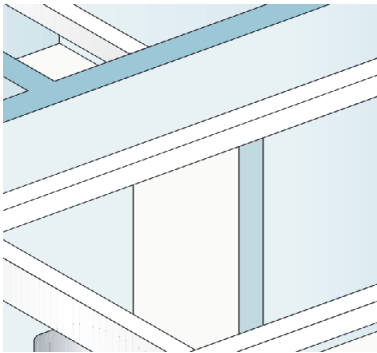

EC - Gantry Traverse

Room covering tracks are on "legs". There is no need for installing tracks in wall or ceiling. EC - Gantry Traverse is very easy to install and dismount. Once mounted it is very easy to raise and lower the height of the gantry without using tools. EC - Gantry is height adjustable from 218 to 253 cm.

EC-Track™ System

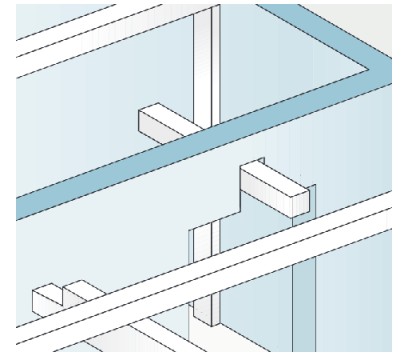

MOVING & HANDLING HOISTS

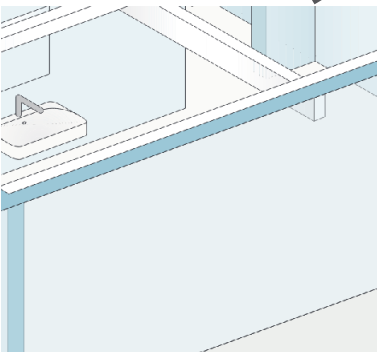

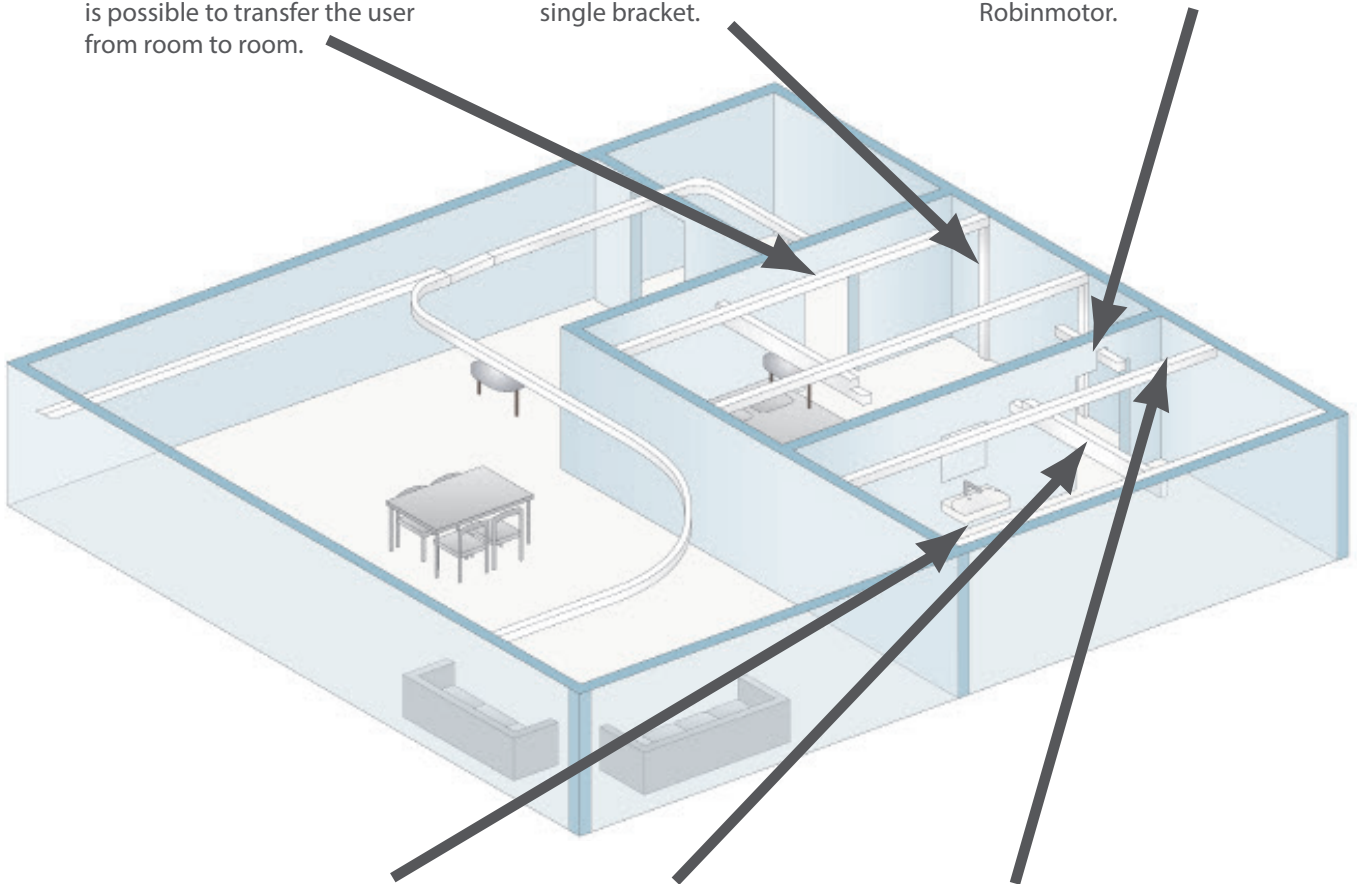

Room to room transfers
With two InvacareRobinmotors and a room-to-room trolley, it is possible to transfer the user from room to room.

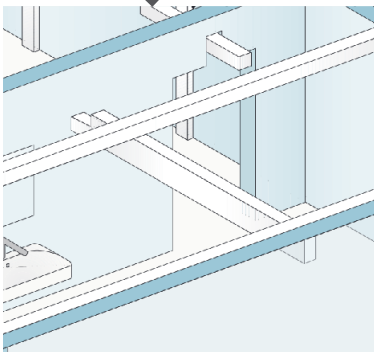

Wall support
The tracks can be wall mounted on walls that will not support a single bracket.

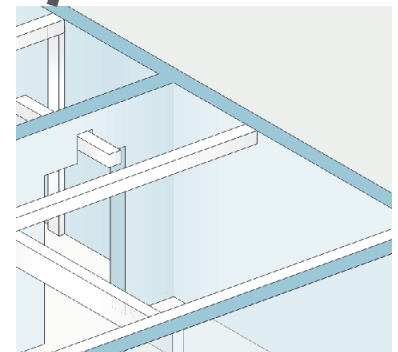

Transit coupling
To transfer the user from one room to another, using only one Robinmotor.

Wall bracket
To install the track along the wall

Traverse (XY) systems
Permits an unlimited number of lifting locations.

Wall bracket
To install the track in a free span. The tracks are mounted to the wall at the ends

MOVING & HANDLING SCALES

SECA 995 CHAIR SCALES

- Digital chair scale with swivelling arms and footrests
- Graduation III (3) of 50g<150kg>100g
- Functions:Tare,Auto-clear,Hold,BMI,Automaticswitch-off, Reset, Damping
- Rechargeable battery and power adapter
- Approx. 906 x 563 x 946mm (HxWxD)
- Weight capacity 250kg
- Weighs approx. 24.5kg

QUANTITY	CODE
1	NE053

MARSDEN BARIATRIC CHAIR SCALES

- Extra wide seat, ideal for bariatric patients
- Hinged armrests and footrests for easier patient transfer
- Two rear braked wheels and two front fixed wheels
- Graduations of 50g<150kg>100g
- Seat approx. H460mm x W530mm
- Height to hand grip approx. 930mm
- Height to top of seat approx. 550mm
- Weight capacity up to 300kg
- Weighs approx. 27kg
- Optional Bluetooth connectivity to instantly transfer data to a tablet, smartphone, PC or central database
- Optional handle to help manoeuvring patients

QUANTITY	CODE
1	NE052

MARSDEN DIGITAL CHAIR SCALES WITH BMI

- Professional medical weighing scale with numerous functions including BMI, Hold and Tare
- Accurate to 50g with graduations of 50g<150kg>100g
- Lightweight and easy to move
- Two rear braked wheels and two fixed wheels
- Hinged armrests and footrests for easier patient transfer
- Powered by a mains rechargeable battery
- Bluetooth connectivity to instantly transfer data to a tablet, smartphone, PC or central database
- Seat approx. W400mm x D380mm
- Weight capacity 250kg
- Weighs approx. 18kg

QUANTITY	CODE
1	NE050

MARSDEN WHEELCHAIR SCALES

- Large weighing platform to accommodate almost every wheelchair
- Gentle ramp incline for ease of use
- One piece compact unit
- Lifts onto fitted castors for easy and safe transportation
- Scale has a Tare or pre-set Tare to deduct the weight of the wheelchair before weighing the patient
- 100g increments
- Rechargeable battery for over 40 hours of continuous use
- Optional Bluetooth connectivity to instantly transfer data to a tablet, smartphone, PC or central database
- Approx. H 1150mm x W 800mm x D 660mm
- Weight capacity 300kg

QUANTITY	CODE
1	NE054

PORTABLE WHEELCHAIR SCALES

- Lightweight weighbeams with gentle ramp incline
- Easily portable with durable carry case
- Accommodates most designs of wheelchair
- Tare or pre-set Tare to deduct weight of wheelchair before weighing patient
- 100g increments
- Rechargeable battery with over 40 hours continuous use
- Optional Bluetooth connectivity to instantly transfer data
- Weight capacity 300kg

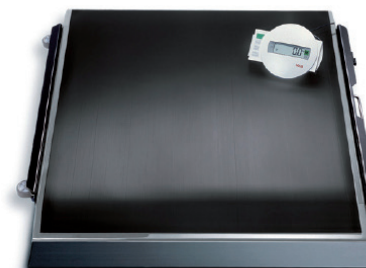

QUANTITY	CODE
1	NE055

SECA WHEELCHAIR SCALES

- Electronic platform scales with high load-bearing capacity and castors for transport
- Generously-sized multifunctional scale weighs patients, people in wheelchairs and seated patients with circulatory trouble, even during dialysis
- Flexible cable remote display can be placed anywhere for convenient read-out and operation of the controls, with wall mounting also provided
- Transport castors and handle for mobility
- Approval Class III (3)
- Graduations of 100g < 200kg > 200g
- Functions: Overload protection, Tare, Auto-clear, Auto, Weighing range switch-over, Pre-Tare, Hold, Auto-Hold, BMI, Reset, Damping
- Power adapter
- Weight capacity 300kg
- Weighs approx. 27kg

- The Marsden M-600 and M-605 are MDD approved, and the only hoist weighing attachments that are legal for use in the UK
- Graduations of 100g
- Three pin tip +ve 12V 2A adaptor for DP3810
- Approx. L630mm x H275mm x D160mm
- Weight capacity 200kg
- Weighs approx. 6kg

QUANTITY	CODE
1	NE056

MARSDEN STAND ON SCALE WITH HEIGHT MEASURE

- The Marsden M-100 is premium-quality Class III Approved column scale,
- 300kg capacity, 50g accuracy
- Integrated height measure
- It has a unique space-saving 'corner' design
- Easy to use functions
- The complete measuring solution for hospital wards, outpatient clinics and GP surgeries

QUANTITY	CODE
1	MR3001

MOVING & HANDLING SLIDE SHEETS

SLIDE SHEETS

- The slidesheets allow three basic patient handling tasks without the need to lift and without the risk of sheering to the patient's skin
- I) Turning a patient: for x-ray, surgical procedures, recovery, pressure care, change of dressing or cleaning
- II) Sitting a patient up in bed: for feeding or relief of chest pain etc.
- III) Moving a patient on or off a bed, trolley or examination couch without painful sheering to the buttocks

MOVING & HANDLING

SLIDE SHEETS

GLIDE & LOCK SHEET - BED

- Oneway glide and lock sheet stops the client from sliding down the bed
- Allows a one directional slide back into the bed then locks, preventing the client sliding forward
- Reduces the amount of handling needed to reposition the client, reducing the risk of back injury to the carer

QUANTITY	CODE
1	MH021

GLIDE & LOCK SHEET - CHAIR

- Oneway glide and lock sheet stops clients from sliding down in a chair
- Allows a one directional slide back into a chair then locks, preventing the client sliding forward
- Reduces the amount of handling needed to reposition the client, reducing the risk of back injury to the carer
- 450mm x 400mm approx

QUANTITY	CODE
1	MH023

TRANSFER SHEET

- Full length body sheet with six long hand holds
- Use with body slide to aid transfers between surfaces
- Weight tested to 127kg/20 stones

QUANTITY	CODE
1	MH025

MOVING & HANDLING TRANSFER BOARDS

BANANA BOARD

- Allows straight and angled transfers
- Low friction surface that will not crack or splinter
- Totally hygienic construction
- Weight capacity 150kg
- Additional handle grips for extra security

TYPE	QUANTITY	CODE
Banana Board	1	MH022
Banana Board with handles	1	MH024

LATERAL TRANSFER FULL BODY SLIDE

- Smooth surface and non-slip base allows movement without lifting
- Use in conjunction with transfer sheet
- Helps to ensure correct posture is maintained
- Tapered edges to allow for easy insert and removal

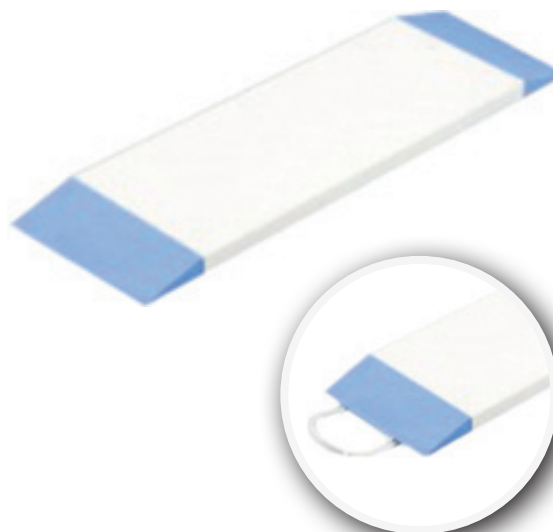

QUANTITY	CODE
1	LOCO-119

TRANSFER BOARD

- Transfer slide with low friction surface
- Rigid surface can withstand weights up to 127kg without bending
- Lightweight and easy to carry
- Wipe-clean surface

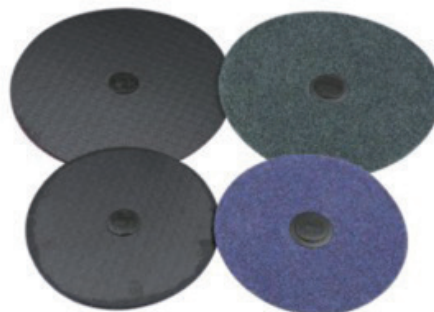

TYPE	QUANTITY	CODE

MOVING & HANDLING TRANSFER AIDS

TURNTABLE

- Allows client to be rotated and moved smoothly and safely from bed to chair/wheelchair/commode, with minimal effort
- Reduces risk of loss of balance and injury to client and carer
- Non-slip base
- Lightweight and portable with 4 cushioned surface
- Weighs approx. 0.3kg

TYPE	QUANTITY	CODE
Plastic	1	MH072
Fabric	1	MH15B

MINI HANDLING BELT

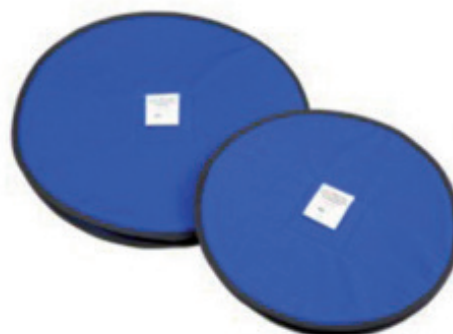

- Standard general gait belt used in rehabilitation and mobility activity
- Quilted polyester with non-slip inner lining and clunk-click safety buckle and four safety grab handles
- Allows client to ambulate under their own momentum whilst allowing carer to help if they become unstable
- Allows carer to 'grab' the belt, rather than clothing, arms or body of the client in the event of a fall, to lower them in a controlled way
- Use with two carers or as a single carer depending on full risk assessment

QUANTITY	CODE
1	MH026

ROTA CUSHION

- Allows a smooth swivel transfer of clients, without painful jarring and twisting
- Soft, padded, flexible turning disc
- Ideal for use on car seats, chairs and beds
- Available in two sizes

QUANTITY	CODE
1	MH028

BED PULL

- Simple webbing loops which hook underneath a bed's leg or caster
- Allows the client to pull themselves into a sitting position
- Reduces the need for a carer's help

QUANTITY	CODE
1	MH031

DELUXE HANDLING BELT

- Quilted polyester with non-slip inner lining and clunk-click safety buckle
- Provides greater degree of support and comfort for end users who are still in a recovery phase and/or have skin integrity issues
- Allows client to ambulate under their own momentum whilst allowing carer to help if they become unstable
- Allows carer to 'grab' the belt, rather than clothing, arms or body of the patient in the event of a fall, to lower them in a controlled way

SIZE	QUANTITY	CODE
Small-Medium	1	MH029
Medium-Large	1	MH030

BACK & LEG RAISER

- Use the raiser across the shoulders and under a client's arms to raise them into a sitting position
- Designed to reduce pushing and pulling across surfaces that could damage clients skin and put strain on carers

QUANTITY	CODE
1	MH032

Sling Inspection

In compliance with the Lifting Operations and Lifting Equipment Regulations (1998), slings and other patient lifting equipment must be inspected regularly to ensure both the safety of the patient being lifted and the carers, nurses or personnel operating the equipment.

At Fairfield Care, we offer a full and comprehensive patient sling inspection and audit, providing an industry-leading support service. We'll help to ensure that your equipment is always well-maintained, legal for operation, and most importantly for you and your patients, safe for use.

Sling inspection service breakdown: what we do for you

- Manage your LOLER compliance
- Hold the registers of each of your inspected assets
- Notify you every six months when you are due for another sling inspection (the time recommended by manufacturers)
- Inspect your equipment every six months, as per LOLER protocol, where our service engineers will visit your property to carry out the sling inspection and carry out any necessary maintenance
- Help you comply with care quality commission guidelines
- Supply a full audit report following every sling inspection
- Supply you with certificates proving your successful inspection and hold copies ourselves
- Include visible tags on slings for easy identification of service

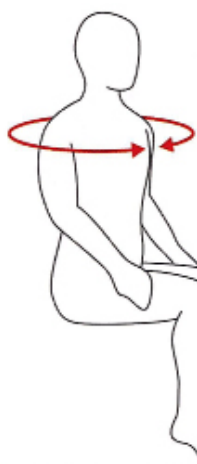

DID YOU KNOW?

We also offer FREE sling training which is carried out by the manufacturer!

INVACARE ReaAzalea

The ReaAzalea is the natural choice for managing all aspects of postural support and comfort. It is available in three chassis sizes with options of both transit wheels for attendant propulsion, or self propel wheels for the moderately active individual. The seating system is versatile in its wide choice of support options and in the adjustments it offers. Making the ReaAzalea the market leader in tilt in space wheelchairs.

- The Rea Azalea offers 25° of seat tilt and 30° of backrest recline to accommodate a range of positioning requirements
- Both tilt and recline are easily adjusted by attendant operated gas pistons, supplied as standard
- As an option, there is also an electric version to give the client independence over their own position and comfort
- Pivot points on the chair closely match the natural pivot points of the person, ensuring synchronised movements between the client and the chair, greatly reducing the risk of sheer during tilt and recline
- For additional safety and confidence for the client, the unique Dual Stability System (DSS) of the Azalea incorporates weight shifting when tilting and reclining, to ensure stability is maintained

QUANTITY	CODE
1	MW1000

Features

- Seat width: 390-440/440-490/490-540mm (390-490/440-540/490-590mm)
- Seat depth: 430-500mm
- Seat height: 400/450mm
- Max user weight: 135kg
- Crash tested ISO 7176-19

Flex 3 Backrest Plate

Flex 3 tension adjustable backrest - accommodates more complex spinal shapes

BATHS

PROLINE COMFORT FIXED HEIGHT BATH

A versatile, fixed height bathing system designed for intensive use in care homes and hospitals

Designed specifically for high-traffic, wet environments, the Proline Comfort Fixed Height Bath comes with powered transfer seat to deliver exceptional levels of care. With its energy efficient keyhole shape and a variety of water-saving features, this versatile bathing system is designed to deliver high levels of performance yet it is still extremely economical to run

- Powered seat traverse effortlessly transfers the bather in and out of the bath, reducing the need for manual handling
- Innovative keyhole design reduces water usage and helps cut energy costs
- Depth level indicators allow carers to pre-fill the bath to a required depth, saving water and eliminating unnecessary additional top-ups
- Tmv3 and wras approved taps maintain a safe pre-set water temperature
- Left and right hand configurations available

QUANTITY	CODE
1	AS2020

Optional Extras

- Detachable transfer chair
- Sensory pack

Key Features

- TMV3 Water temperature control taps
- Powered seat system (with lap strap)
- Shepherds Crook (WRAS approved)
- Nursing arms
- SWL = 165kg

Detachable transfer chair system to assist carers when transporting bathers between rooms (optional)

PROLINE COMFORT VARIABLE HEIGHT BATH

A versatile, variable height bathing system designed for intensive use in care homes and hospitals

Designed specifically for high-traffic, wet environments, the Proline Comfort Variable Height Bath is fully height adjustable and comes with powered transfer seat to deliver exceptional levels of care. With its energy efficient keyhole shape and a variety of water-saving features, this versatile bathing system is designed to deliver high levels of performance yet it is still extremely economical to run.

Being height adjustable ensures a safe, comfortable working height for care staff

- Powered seat traverse effortlessly transfers the bather in and out of the bath, reducing the need for manual handling
- Innovative keyhole design reduces water usage and helps cut energy costs
- Depth level indicators allow carers to pre-fill the bath to a required depth, saving water and eliminating unnecessary additional top-ups
- Tmv3 and wras approved taps maintain a safe pre-set water temperature
- Left and right hand configurations available

QUANTITY	CODE
1	AS2010

Optional Extras

- Detachable transfer chair
- Sensory pack
- Shepherds Crook (WRAS approved)

Key Features

- TMV3 Water temperature control taps
- Powered seat system (with lap strap)
- Nursing arms
- SWL = 165kg

Detachable transfer chair system to assist carers when transporting bathers between rooms (optional)

BATHING & TOILETING

BATHS

PHOENIX HEIGHT ADJUSTABLE BATH

The Phoenix height adjustable care bath is one of the most modern baths available on the market today with pure uncompromising design and effortless curves.

The Phoenix assisted bath has been designed over many years with the patients' needs in mind, and unlike most traditional baths, the Phoenix doesn't have a fully flat base, but instead is beautifully contoured to support the client in either a seated or reclined position giving this bath the edge in comfort and support.

- Pure uncompromising design, effortless curves and angles
- Beautifully contoured to support the client whether seated or reclined
- Ergonomically shaped internal design with slanted foot area
- Height range from 680mm to 1080mm
- Non-porous and hygienic GRP
- Built-in control
- Electronic temperature display for bath and shower water
- Thermostat with water flow rate and double scald protection
- Available in two lengths: 1700mm and 1900mm

QUANTITY	CODE
1	BS005

Optional Extras

- Removable footboard
- Chrome brass grab handles
- Body support cushions
- Head and neck support cushions
- Disinfectant cleaning system
- Auto fill
- Air spa system
- Aromatherapy system (with air spa only)
- Integrated Bluetooth music/sound system
- Coloured LED light system (4 lights)
- Superior light system (20 micro LEDs)

Key Features

- Safe working load: 300kg (47¼st)
- Height range: 680mm – 1080mm (400mm)
- Built in control panel
- Electronic bath and shower water temperature display
- Floor and ceiling hoist access

AVERO HEIGHT ADJUSTABLE BATH

The latest generation of patient handling disabled baths that gives the client plenty of room to move about with maximum internal size with minimum external dimensions.

- Can be fitted with patented Neatfold showering, dressing and changing system
- Height range from 680mm to 1080mm
- Weight capacity 300kg
- Approx. 2100mm x 800mm
- Floor and ceiling hoist access
- Free standing
- Large lifting capacity
- Double thermo insulated tub
- Also available as a fixed height bath, in 2 different heights

QUANTITY	CODE
1	BS011

Optional Extras

- Range of thermostatic taps with shower
- Neatfold changing system
- Music therapy MP3 system
- Light therapy
- Air spa system
- Body support cushions
- Knee support
- Telescopic knee support brace
- Footboard
- Grab handles
- 3 stage backrest
- Available in almost any colour

Key Features

- Maximum internal size
- Weight capacity 300kg
- Floor & ceiling hoist access
- Available as a fixed height bath
- Double thermo insulated tub

BATHING & TOILETING BATHS

MOTION HEIGHT ADJUSTABLE RECLINING BATH

- Height adjustable, reclining bath with generous internal dimensions
- Contemporary appearance with practical performance
- Simple operation, with only one carer needed
- Height range from 810mm to 1010mm
- Weight capacity 210kg
- Large lightweight door with built in safety lock
- Spacious 98ltr foot well
- Two stage auto-fill
- Low user entry height of 490mm
- Compatible with Carlo Mobile Hoist and Ora Standing Aid

QUANTITY	CODE
1	BS006.1

Optional Extras

- Range of thermostatic valves
- WEAS gantry and shower
- Shower gantry option
- Air spa
- Aromatherapy system
- Music system
- Coloured chromotherapy light system

VANNA BATH

- Height adjustable bath with side opening powered door
- Gives client and care giver greater freedom and control
- Simple elegant design allows easy access in and out of the bath with or without a hoist
- Height easily adjusted at the touch of a button
- Generous lifting capacity
- Four different lengths available
- Can be fitted with patented Neatfold showering, dressing and changing system
- Height range from 780mm to 1180mm
- Weight capacity 300kg
- Approx. 2300/2100/1900/1700mm x 830mm
- Floor and ceiling hoist access
- Powered door
- Handset control operation
- Set of cushions with backrest

QUANTITY	CODE
1	BS012

Optional Extras

- Range of thermostatic valves
- WRAS shower gantry system
- Neatfold changing system
- Warm air spa system
- Bluetooth music system
- LED lights
- Range of internal supports
- Option to change standard backrest to headrest
- Knee blocks
- Telescopic knee support brace
- Body support cushion
- Universal footboard
- 3 stage backrest

RAMBLEGARD FALL MANAGEMENT AND PATIENT MONITORING SYSTEMS

Each year a third of adults aged 65 and over experience a fall, with 20-30% of people suffering moderate to severe injuries restricting mobility and independence. Falls currently cost the NHS over £4 million a day and are one of the leading causes of injury-related deaths. Ramblegard fall management systems provide a range of options to suit all situations, helping to maintain patient safety whilst maximising independence.

Wired Seatgard

- Triggers alarm when patient releases pressure by exiting the chair
- Durable and long lasting
- 1 year guarantee
- When triggered the mat sends an alarm signal to a remote monitor/pager or existing call system
- USB break-cable to protect monitor

PRESSURE RELIEF SEATING

DELTA PRESSURE RELIEF CHAIR

- Provides comfort and postural support for the semi and non-ambulant
- Easy to adjust and manoeuvre
- Weight capacity 180kg

FEATURES INCLUDE:

- Either gas action, electric, or regulated motion tilt-in-space and legrest elevation
- Choice of headrest
- Innovative pressure relieving Reflexion™ Foam and multi-directional, breathable Dartex material on all contact surfaces
- Multi-positioning, integral headrest
- Seat length adjustment
- Arcing legrest motion without compromising footboard positioning
- Adjustable footboard height and angle
- Built-in lateral supports
- Optional large button hand controller
- Protective bumpers
- Two wheel options: 100mm wheels, braked at rear, or 315mm rear wheels with brake bar (400/450 seat widths only)
- Three pressure relieving integral seat options: Intelli-Gel®, Transflo Gel or Reflexion™ Foam
- Two back style options: Reflexion™ Foam or Advanced Comfort

QUANTITY	CODE

GELTEX® inside represents the next generation of medical mattress technology. Its patented formula provides a unique combination of breathability, pressure distribution and body support.

GELTEX® is created by fusing elastic gel with air-permeable foam, resulting in a breathable, open cell material that promotes an improved microclimate between patient and mattress.

The fusion of elastic gel and breathable foam provides improved pressure relief, while the open micro-cellular structure enables better breathability.

The foam is treated with a special hygienic treatment to reduce bacterial growth. Together, these technologies provide a pleasant, healthy sleeping environment with reduced sweating or shivering and all-round hygienic protection.

FIRE EVACUATION EVACUATION CHAIRS

EVACUATION SHEET

- Designed to be placed below a foam mattress and secured to the mattress by means of 4 elastic corner straps
- 2 webbing safety straps are extracted from their storage pockets and fastened round both mattress and patient, who is then evacuated by staff using webbing pull handles provided
- The sheet features a silicone coated side to aid swift and easy movement across all surface types
- The red polyester fabric is fire retardant, is extremely strong and has been rigorously tested

QUANTITY	CODE
1	FE001

EVACUATION SHEET FOR AIR MATTRESS

- This Evacuation Sheet for Active Mattresses, is designed to be strapped underneath the mattress at all times
- In the event of an evacuation the service user is secured to the mattress using the straps on the evacuation sheet and moved to safety along with the mattress

QUANTITY	CODE
1	FE002

WALL MOUNTED FIRE EVACUATION MATTRESS

- The 50mm foam mattress can be safely stored out of the way for emergencies, by folding into the storage bag and mounting to the wall
- During evacuation, the patient can be transferred to the mattress and secured using the straps provided, before being carried to safety
- They will also receive some comfort thanks to the mattress being foam based.

QUANTITY	CODE
1	FE003

FIRE EVACUATION EVACUATION AIDS

VERSA EVACUATION CHAIR

- Automatically deployed wheels for corridors and landings
- Instant operation telescopic handle
- Safety brakes on rear wheels
- Comfort backrest and footrest
- nique top step safety feature
- Landing size: 80 x 80cm min (32 x 32)
- Capacity: 180kg (28st)
- Stair Angle: 28-42
- Dimensions Stored: H104 x W50 x D29cm
- Wall Mounting Bracket: (H41 x W20 x D11)
- Weight: 14.6 kg

CLEANING EQUIPMENT

CLEANING TROLLEYS

ALPHA CLEANING TROLLEY

- The Alpha Trolley is ideal for larger working environments and lets you easily take all of your equipment with you
- It is made from heavy-duty shock resistant plastic, with a lockable cupboard for secure storage
- When not in use, the trolley can be folded into a compact size for easy storage
- This is an environmentally-friendly cleaning method as it significantly reduces the use of cleaning chemicals and water
- Because the flat mops are used damp, there's no need for wringing out and floors dry faster than traditional mopping resulting in a much safer task

QUANTITY	CODE
1	J0800

DUPLEX CLEANING DEMO

We offer a **FREE** demonstration of all Duplex floor cleaning machines!

With the wide range of machines available, we will do an on site demonstration of your chosen machine to allow you to see all of its benefits.

What does a demonstration include?

- Demonstration carried out by the manufacturer
- A thorough walkthrough of all the functions and benefits
- A step by step walkthrough on how to use the machine
- A walk through carried out by you to allow you to feel how the machine will work

After your demonstration your rep will be contactable to discuss any purchasing queries you may have.

Another full demonstration will be carried out by the manufacturer after a purchase has been made to show any user how to correctly set up, use, and fully clean the machine.

Improve the efficiency of your laundry room with the Britex Pro auto dosing system

Why the Britex auto dosing system is cost effective

- Free installation
- Free system programming
- Free staff training
- Free COSHH sheets
- Free system calibration 4 times a year
- Free annual servicing and maintenance

What's different?

We provide the auto dosing system free of charge, including the installation, programming, calibration every 3 months and servicing and maintenance annually when we replace all tubing to ensure your auto dosing equipment continues to run smoothly, staff training on how to use the system, and COSHH sheets. In fact all you pay for is the laundry liquids that you need. Everything else is free!

Speak to a member of our team to find out more and arrange for installation of your free* pumps!

*Pumps provided free of charge with the purchase of our laundry liquid

The Britex Pro system will also save you money on the products you use because it dispenses a consistent amount of liquid every time, with minimal wastage, giving you clear cost control of the products you use. The programme selector can be used to select the desired wash programme and the screen displays the name of the programme, dispensing the appropriate liquid and giving fresh and clean linen without accidental spillage or damage.

- Clinell Contiplan All In 1 Cleansing Wipes

Combining innovative technology with ease of use, Clinell products provide healthcare professionals with the most effective solutions available. Each product is supported and verified by solid clinical evidence.

CLINELL UNIVERSAL WIPES

Clean and disinfect in a single step. Kills at least 99.999% of pathogens. Effective from 10 seconds.

The UK's most trusted single-step detergent and disinfectant; ideal for use on both surfaces and non-invasive medical devices. Patented near-neutral pH formula ensures exceptional material compatibility and is proven to kill at least 99.999% of pathogens after 10 seconds, norovirus within one minute and reduce instances of MRSA by 55%.

CLINELL SPORICIDAL WIPES

Peracetic acid generating wipes for safe surface disinfection and the cleaning of non-invasive medical devices. Effective against spores in one minute.

The UK's safest, most trusted sporicidal wipes for high level cleaning and disinfecting of surfaces and non-invasive medical devices.

Incredibly powerful, with 6 log spore kill count in just 1 minute, yet kind to surfaces thanks to patented, near-neutral pH formula. Proven to reduce *C. difficile*-associated disease by 72%.

HOUSEHOLD AIR FRESHENERS

OXYGEN-PRO VIVA!E DISPENSER

- Oxy-Gen Powered technology is a clean source of power, producing continuous levels of intense fragrance that contain no propellants, solvents or CFCs – just pure natural scent
- The Viva!E Air Freshness system uses Neutra-Lox, a proprietary odour neutralising agent to eliminate any bad odours, instead of masking them, leaving only fresh scent in the air

QUANTITY	CODE
1	J0118DW

VIVA!E REFILLS

- 60 days of continuous fragrance
- Sooth - a warm, sensual fragrance combining oudh, sandalwood & saffron
- Fresh - a fruity fragrance of fresh watermelon with plum, peach, raspberry & crisp green apple
- Zing - a freshly sliced, mouthwatering mandarin fragrance sweetened by lush juicy orange
- Crush - an exotic mix of pineapple, tropical fruits & coconut
- Glow - juicy black cherries, hints of almond and plum on a background of vanilla and cinnamon

FRAGRANCE	QUANTITY	CODE
Sooth	1	J0118S
Fresh	1	J0118F
Zing	1	J0118Z
Crush	1	J0118C
Glow	1	J0118G

Oxy-Gen powered technology is a new, medical-grade innovation that harnesses the power of pure oxygen to deliver continuous and consistent ambient fragrance

- No harmful emissions, solvents or propellants
- Low VOCs mean it's ideal for green buildings and LEED certification requirements
- It can reduce the amount of VOCs being emitted by up to 90% when compared to aerosol cans
- The refills are 100% recyclable and safe to dispose of in your regular plastic recycling waste
- Less waste and safe storage
- Works against gravity so the fragrance oil will not pool or leak
- Battery operated so can be placed in the safest place

VIVA!e™

The worlds most eco-friendly
air freshness system!

The Viva!e uses Oxy-Gen powered technology which is a clean source of power that produces continuous levels of intense fragrance.

60 days of continuous fresh
scent & odour control

The Viva!E uses Neutra-Lox, a proprietary odour neutralising agent to eliminate bad odours instead of masking them

Carbon footprint approved

It has been assessed and verified for emissions and energy consumption and was found to have a significantly lower carbon footprint compared to aerosol products in the market

Top quality fragrances

Contains no propellants, solvents or CFCs...just pure, natural scent!

Plates & bowls also available

The OMNI logo is displayed in a bold, white, sans-serif font within a dark grey rectangular box. Below the logo, the tagline 'Making eating and drinking enjoyable for all' is written in a smaller, italicized, white font.

*Making eating
and drinking
enjoyable for all*

A unique and innovatively designed premium melamine tableware solution

The OMNI Dinnerware range has been created in response to a real demand identified by customers, who are unable to source suitable dinnerware for the healthcare sector.

It has been created by working with hospitals, care homes, carers and dementia sufferers to create a fit-for-purpose healthcare dinnerware range that is...

- Made from 100% food-safe premium melamine
- Is durable, strong and practically indestructable
- Keeps cold food and drink cool
- Keeps hot food and drink warm
- Has the appearance of porcelain
- Is dishwasher safe
- BPA-free

Alzheimer's and Dementia sufferer's food intake increases by up to 25% and liquid intake increases by up to 83% when high-contrast tableware is used.

Speak to a member of our sales team to request a free demonstration of the range.

BEDS

PROFILING BEDS

MEDLEY ERGO PROFILING BED

- Optimal dimensions designed in accordance with anthropometric statistics and has been pressure mapped during the design process
- Increased comfort when sitting
- Reduced shear and friction from sliding downwards during profiling
- Suitable for shorter clients
- Adjustable height range for Medley Ergo of 330-730mm or 400-800mm

QUANTITY	CODE
1	APH051

MEDLEY ERGO PROFILING BED LOW

- Optimal dimensions designed in accordance with anthropometric statistics and has been pressure mapped during the design process
- Increased comfort when sitting
- Reduced shear and friction from sliding downwards during profiling
- Suitable for shorter clients
- Adjustable height range for Medley Ergo Low of 210-610mm or 280-680mm

QUANTITY	CODE
1	APH052

WOBURN ULTRA LOW PROFILING BED

- With unique features allowing the platform to be lowered 67mm off floor level, the Ultra-Low Bed provides users safety and reliability
- Being able to lower to just 67mm from floor level, the bed is built for use without the need of side rails. Should the user be inclined to roll whilst in bed, and potentially fall, the bed reduces impact and allows the user to safely roll onto the floor, or a fall mat
