Slider Sheets for Beds

Introducing the Swift® UltraSlide System, a cost-effective, low-friction repositioning system

- Use when patients/residents have little/no mobility and require extensive or total assistance for repositioning in bed
- Allows caregivers to safely and easily carry out handling tasks with little physical exertion and risk
- Developed to alleviate potential manual handling injuries to the neck, shoulder and back, saving care homes time and money
- Perfect to support no-lift policies, creating a safer environment for staff
- Made with a breathable, low-friction backing to avoid heat build-up and resistance under the patient/resident
